

## RIVERSIDE COUNTY OFFICE ON AGING

# *InfoVan Program*

The InfoVan, a partnership of the Community Outreach for Independent Living project, is an exciting new program designed to help older adults and adults with functional limitations to remain as healthy and independent as possible for as long as possible. The purpose of the InfoVan is to assist and enable these individuals by:

- Empowering them with life-enhancing information and encouragement that they can utilize to assume responsibility for their own health and well-being.
- Increasing knowledge of, and access to, vital health and social services in the Riverside County area.
- Providing quality caregiver information, including access-to-services information, to adult children, relatives, neighbors, and/or anyone who provides care and support for older adults and adults with functional limitations in the community.
